COMPANIES	COMMENTS
YAVUZLAR	We have e-mail and phone traffic.
SARAY ALÜMİNYUM	Ethiopia was a very weak economy as a country, but it was good apart from it.
TEVERPAN	Robit International Business Group PLC company that we want to discuss abandoned coming to Turkey. For this reason he did not come to our appointment. But it was only after waiting almost an hour from the starting time of the interview. If the company does not come, it should be removed from the list and we should not be given an appointment.
YILTAŞGRUP	In a short time we were able to meet with different companies, but we might not see the same effect on the visit. We will be able to visit the firm already when the agreement is attached to the protocol. There was no waiting area, we had to wait standing. At least a ready-made interpreter for bilateral negotiations could be available or it could be helped in order to provide a prompt and quick solution to your requesting members by understanding with the interpreting agency. Otherwise I think there is some confusion about the interpreter.
ELEKTRONET	I would like to make such commercial relations more often. I am very pleased to have a nice organization, congratulations.
KARBOSAN	There were no wholesalers in the real sense, despite the warnings, the time of the interviews was not respected, the third parties came in and went in while talking to the customer.
